## WEEKLY WEATHER BULLETIN.

For the Week Ending April 21, 1906.

Local Office, U. S. Weather Bureau, Honolulu, T. H., April 23, 1906.

### GENERAL SUMMARY.

The past week was marked by a continuance of steady trade winds of moderate force, attended, as is usual at this season of the year, by fairly heavy showers in nearly all windward districts of the group. The week was quite dry, however, in the lower levels of the Kau district of Hawaii, in leeward and central Maui and leeward Kauai. Fairly good showers occurred in the upper levels of the leeward valleys of Oahu, but the leeward coast districts continued dry.

The rainfall of the week occurred principally at night, the days being warm and sunny and mean temperatures being well up to the normal. In Oahu and Kauai, temperatures were appreciably higher than those of the previous week.

The following table shows the weekly averages of temperature and rainfall for the principal islands and for the group:

	Temp.	Rainfall.
	Deg.	Inches.
Hawaii	70	2.11
Oahu	71	1.00
Maui	74	0.29
Kauai	74	0.52
Entire group	72	1.42

A few correspondents in Hawaii and Kauai report that very light earthquake shocks were experienced in their localities during the early morning of the 18th. The Pacific Coast disturbance was also recorded on the seismograph of the U. S. Magnetic Station near Ewa, Oahu.

The following is an extract from a letter actually received by a New York house doing business with foreign countries. The letter came from Kumbhakonam, South India:

"As natives of India are always worshippers of all gods and idols, if you can favor me with a list of idols, their prices and some sample idols, I will be able to send you a large wholesale order for these gods, which will take up exceedingly well among natives all over India; and if you can get me the sole agency from that factory for introducing their idols throughout India, I am sure to make their business a thorough success here in the event of their undertaking to give the sole agency throughout India, Burma and Ceylon, and also a fixed traveling allowance, say \$25 a month including Batta to one of my clerks to begin with, who will go throughout India and secure orders from natives, rich and poor, merchants and nobles, etc.

"If you can kindly see your way to get me the sole agency on the above lines, I can make it a great success financially for both of us, you undertaking to supply me with idols and I undertaking to sell them as fast as possible. There is no competition for this line of business here, and hence I wish to be first in the field and natives are such a bigoted people who will sell their souls, if possible to worship an idol of their own.
